

# DUCK Token Whitepaper

## DUCK Token Whitepaper

Date: April 8, 2025

Project Name: DUCK Token

Type: BEP20 Meme Coin

Chain: BNB Smart Chain (BSC)

Contract Address: 0x5C02e60B6eFe97A6e27FC7613E3Ad9bC0b4E927c

Open Source Repository: <https://github.com/duckmuster2140/assets>

### 1. Project Overview

DUCK Token is a fully open, fair, and decentralized meme coin with no presale, no team allocation, and no private sale. All tokens are distributed via liquidity pools and airdrops.

The founder holds 0 tokens at launch. All DUCK can only be bought from the open market.

We believe in: consensus first, conviction-driven, and equal access for all.

### 2. Contract Core Mechanics

- Non-Mintable ? The total supply is permanently fixed in the contract.
- No Owner Privileges ? No mint(), pause(), owner() or blacklist functions.
- Renounced Ownership ? The contract is immutable after deployment.
- Fully Open Source ? Verified on BscScan and open for public review.

### Contract Code Highlight (Total Supply Lock)

-----

```
pragma solidity ^0.8.0;
```

```
contract DUCK {
```

```
    string public name = "DUCK Token";
```

```
    string public symbol = "DUCK";
```

```
    uint8 public decimals = 18;
```

```
    uint256 public totalSupply = 10_000_000_000 * 10 ** uint256(decimals);
```

## DUCK Token Whitepaper

```
mapping(address => uint256) public balanceOf;  
mapping(address => mapping(address => uint256)) public allowance;
```

```
constructor() {  
    balanceOf[msg.sender] = totalSupply;  
}
```

```
function transfer(address to, uint256 value) public returns (bool) {  
    require(balanceOf[msg.sender] >= value, "Insufficient balance");  
    balanceOf[msg.sender] -= value;  
    balanceOf[to] += value;  
    return true;  
}  
}
```

As shown above, totalSupply is hardcoded and cannot be increased. There is no mint() function.

### 3. Token Information

Name: DUCK Token

Symbol: DUCK

Type: BEP-20

Decimals: 18

Total Supply: 10,000,000,000 DUCK

Contract Address: 0x5C02e60B6eFe97A6e27FC7613E3Ad9bC0b4E927c

### 4. Token Allocation

- 50%: PancakeSwap Liquidity (locked)

- 30%: Community Airdrop

- 15%: Campaigns & Creators

- 5%: Ecosystem & Growth

Team Allocation: 0%

## DUCK Token Whitepaper

### 5. Community & Transparency

Twitter: <https://x.com/duckmuster2140>

GitHub: <https://github.com/duckmuster2140/assets>

PancakeSwap:

<https://pancakeswap.finance/swap?outputCurrency=0x5C02e60B6eFe97A6e27FC7613E3Ad9bC0b4E927c>

### 6. Roadmap

Q2 2025: Trust Wallet logo, first airdrop, launch LP

Q3 2025: DUCK NFT, reach 1,000 holders, apply to XT, MEXC

Q4 2025: Apply to CoinGecko & CMC, expand usage, DAO

### 7. Vision

?Even the founder must buy DUCK tokens to own them.?

DUCK is built on pure meme energy ? not token reserves, not clever tokenomics, but collective belief.

It?s a piggy bank, a battle cry, and your first Web3 duck coin.

Contract: 0x5C02e60B6eFe97A6e27FC7613E3Ad9bC0b4E927c

Buy: PancakeSwap DUCK
